FUNDACIÓ  
VILA CASAS

In this sculpture the artist has created forms with bronze to express his vision of **nature**. In this case, he has represented the Medes Islands, some islands off the coastal town L'Estartit, in Baix Empordà.

Notice the **rounded and smooth** silhouettes, and how the artist has made use of concave and convex features.

How about creating a landscape or natural feature, in the way the sculptor made his, or even a different way?

And we can experiment with an object which you are sure to have at home: **an egg box!**

## Materials:

Do you have an egg box? You could paint it and/or decorate it in your own style! And if you want to make it bigger or with more abstract shapes you could add clay or aluminium foil.

Nature is itself made up of an infinite number of structures and creative possibilities.

**Have a go! Let your imagination create shapes and structures!**
