In the image you can see the artwork **Composició (Composition)**, that the artist Josep Guinovart made in 1972.

There are artists who take us, through their artwork, to a remote place or a past time in their life. This is the case with the artist JOSEP GUINOVART, who shows us in his artwork his favourite place where he spent a lot of time in his childhood: the fields of unirrigated dry land in **Agramunt (Lleida)**. He, and all his family, settled there in a farmhouse because of the danger to them in the city of Barcelona when the Spanish Civil War broke out.

He got to know nature, the countryside, some objects and animals, such as hens, cows, straw, cartwheels and horses. This three-dimensional artwork shows all these items that he saw when he was a child.

What do you see there? Maybe the toys that he played with when he was a child on the farm?

Choose a memory and represent it using shapes, lines, colours, textures and, above all, objects. You could put your creation together using the technique of assembling using non-artistic objects, as well as making use of items from nature.

Materials:

A piece card or any stiff support (cardboard or wood), textures and/or materials found in nature, paint that you can mix with glitter, solid poster paints and if you want to add in objects that spring to mind, don't forget the glue!

Have a go!
